WELCOME

A Note from Jennifer

> *"I don't simply book travel. I design elevated, intentional experiences for families who believe how you travel matters as much as where you go."*

My name is Jennifer Covington, and I'm the owner and travel advisor behind Catch Us on Main Street. I plan for families who gather to celebrate: three generations traveling together, milestone birthdays and anniversaries, family reunions, and couples who want every detail handled with care. Cruises, all-inclusive and luxury resorts, custom trips around the world, and theme parks.

Before travel, I spent 15+ years in management consulting. That's where I learned to ask the right questions, sweat the details, and stay steady when plans change. My approach is also shaped by my own experience navigating travel with medical needs and food allergies, so I know what it takes for every person in your group to feel looked after.

What you get from me is not a generic itinerary and a confirmation number. It's a trip researched, refined, and built around your family, and an advisor who stays in your corner from our first call until you're home. When a flight changes or a plan shifts, I'm already working on it, so you can keep enjoying your trip.

Three generations on one ship, a reunion of forty, or a quiet anniversary for two, my goal is the same: you enjoy the trip, and I carry the details.

THE NAME BEHIND THE BRAND

The name came from a feeling.

I am a Disney adult, proudly, unashamedly. So is my husband. And our three kids are growing up as Disney kids. Main Street USA is not just an entrance to a theme park for us. It is where the magic starts.

In March 2025 I was laid off. Four days after my last day of work, I was at Disneyland, leaning into faith and everything that matters most. This business came from that season. The belief that elevated, intentional family travel is something every family deserves. That you can be caught on Main Street USA, or anywhere in the world, doing it up and doing it well, in the middle of life's highs and lows.

That is what this is really about. Creating the memories our children will carry forever. And helping other families do exactly the same.

HOW PLANNING FEES WORK

Why a fee? Commission alone doesn't cover the research and hours behind a well-planned trip.

What changes it: extra households, extra hotel stops, custom international itineraries, and booking within 30 days of travel.

When: paid before planning begins. It's separate from your trip cost and non-refundable.

Typical range: most Concierge Journeys land between $650 and $1,500.

INCLUDED WITH EVERY SERVICE

VIP hotel perks. Extras you can't get booking on your own at my partner hotels, like a hotel credit, daily breakfast, and priority upgrades.

Your digital trip app. Your proposal arrives there, and once you book, it becomes your live itinerary with every confirmation in one place.

Care for every traveler. Food allergies and medical needs are planned around from day one.

PHILOSOPHY

Your Investment in Elevated Travel

This is not a booking service. It is an advisory relationship, closer to hiring a consultant than making a reservation.

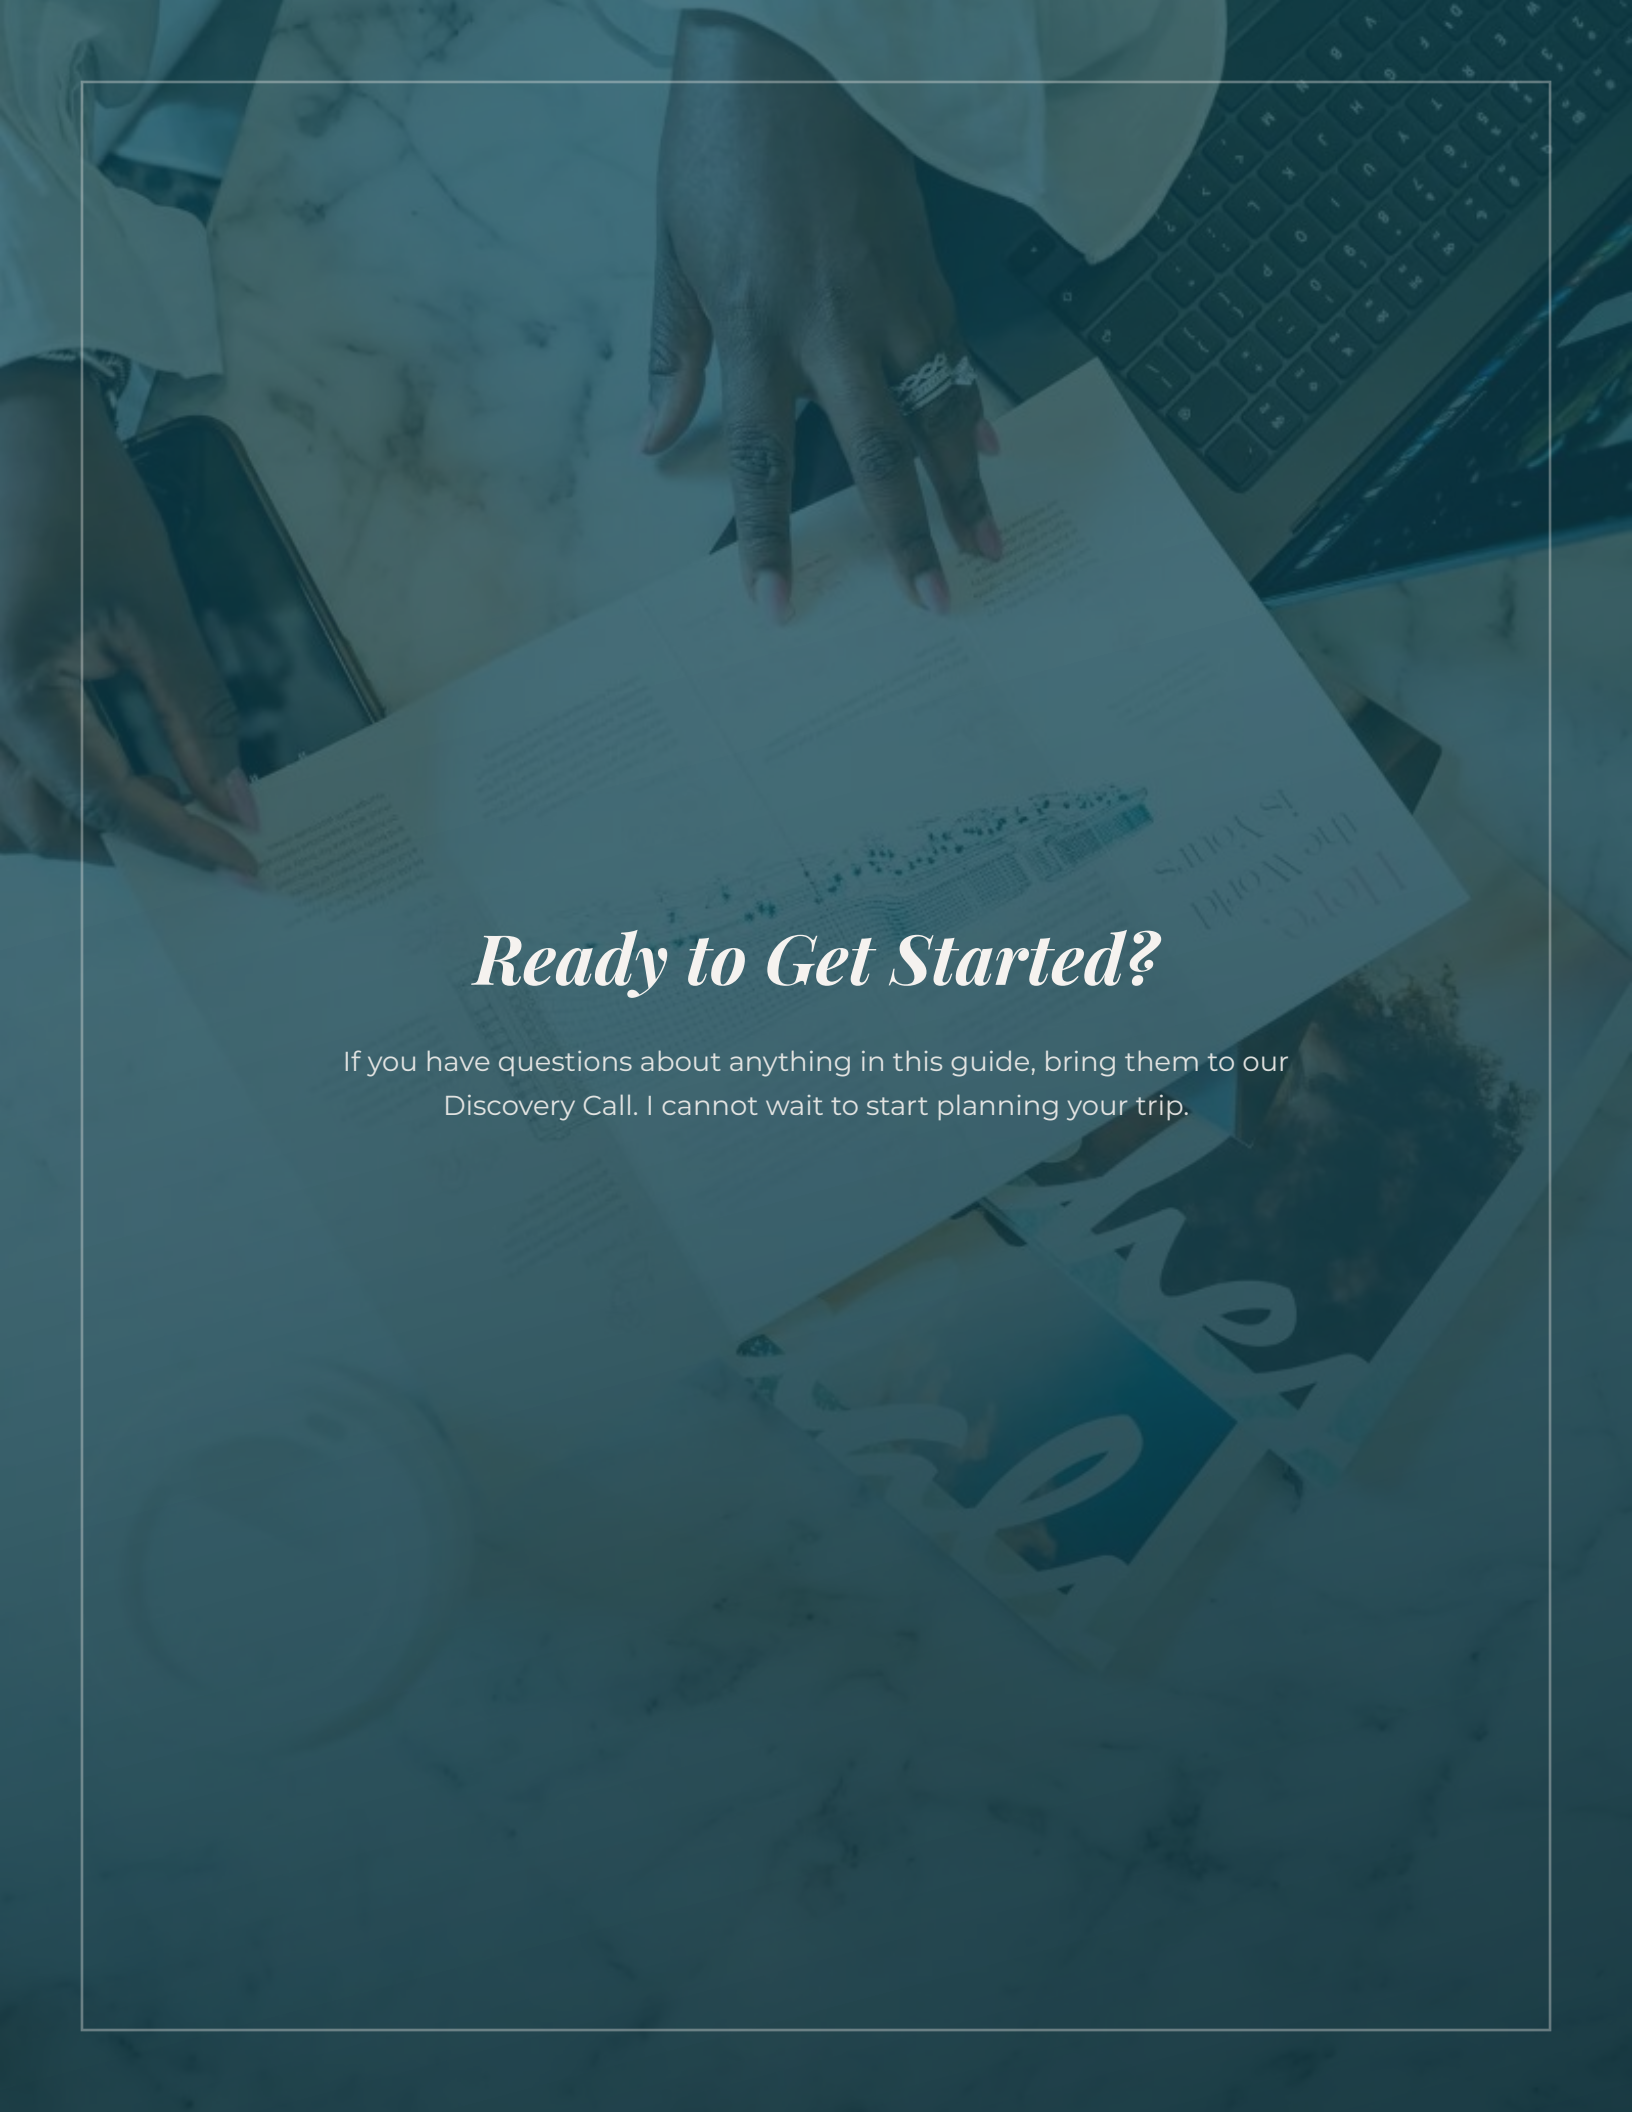

If you have never worked with a travel advisor before, here is what is actually different: it is built around research, expertise, and the kind of ease that lets you enjoy planning your trip instead of dreading it.

I am not the advisor chasing the lowest possible price. My goal is to find you the best value: the right resort, the right timing, the right details handled, so your family experiences the trip elevated, not stripped down. That matters most for larger families and groups, where costs rise fast and logistics multiply with every additional traveler and every additional destination.

Your planning fee reflects that. Think of it the way you think about your accountant, your attorney, or your financial advisor: you pay them for their expertise, not for paperwork. You pay me for mine, shaped by 15+ years of management consulting experience.

I am paid two ways: the planning fee itself, and commission from the hotel, cruise line, or resort when I book directly, at no added cost to you. Commission is not consistent, so my fee is tied to my time and expertise, not to what I book, which means every recommendation is shaped by what is right for your family.

> *The starting-at figures in My Services are there so you know what to expect walking in, not because your planning fee is something you pick off a shelf. Where your trip lands, and what moves the fee up from there, is something we confirm together on your Discovery Call, based on your travelers, your destinations, and the complexity of what you are asking me to plan.*
